

S.A.S Prince Albert II of Monaco with Jean-Michel Bouresche (JMB Racing President) at the 10th anniversary party of the team with the A.C.M.

Since its creation in 1995 by Jean-Michel BOURESCHÉ, JMB RACING has gleaned 14 titles, among which, three Sports Prototype's World Cups in 1998, 1999 and 2000, with a FERRARI 333 SP and a World Champion drivers' title and the N-GT FIA 2001

with a Ferrari 360 Modena NGT. In addition, JMB Racing won the Vice Champion title six times and came in third position four times.

The team reached the highest level of achievement, thanks to its commitment to essential values:

Passion, rigour, competence, motivation and fidelity...

This passion for the sport and the values that it conveys is also very strong in the Principality of Monaco, which the JMB team has the honour of representing since 2004, when it competes on its circuits under licence from the "Automobile Club of Monaco".

Today, the team possesses a rich human resource contingent which is composed of 30 qualified and extremely motivated collaborators. A marketing department are at our partners' disposal in order to assist them in achieving their objectives. This, coupled with a cutting edge technical tool and a top-of-the-line infrastructure worthy of the most successful teams, has allowed JMB RACING to become one of the teams of reference in the World of Endurance Racing.

Since the beginning of 2006, JMB RACING can rightly boast of being the only automobile racing team participating in the FIA GT Championship to have obtained ISO 9001 : 2000 certification. This certification validates the quality work accomplished by JMB RACING. It confirms the ceaseless researches of the team members who work to the improvement of the company's organisation and bringing it closer to consistent excellence.
